

Prestige by Romain Gauthier

C

Collection Prestige features an original in-house movement and design. The elegant hand-guilloché solid-gold dial with off-center time indication is fairly traditional; however, the apparent lack of a crown gives an indication that the movement beneath is anything but. The superbly finished movement features an innovative flat crown on the back, which is easy to wind on the wrist. The case is available in white gold, red gold and platinum and has a diameter of 41mm. Limited edition of 38 and 8 with baguette-cut diamonds set in the bezel. <
